CS106.3 Algorithms & Data Structures

Faculty of Computing

Tutorial

47	12	83	29	56	7	91	34	18

1. Draw the complete Merge Sort division tree until each sub-array contains only one element.
2. Illustrate every merging step, clearly showing how the elements are compared and arranged.
3. Draw the final sorted array.

72	15	48	93	26	15	61	84	39	7	48	52

1. Draw the complete Merge Sort division tree, showing all sub-arrays at each level
2. Demonstrate the merging process in ascending order, including how duplicate values are handled.
3. Draw the final sorted array.
